deadline 7 October 2026

Frontier technologies are fundamentally reshaping our world – they are increasingly woven into our national security, our economy and our daily lives. Their capabilities are advancing at extraordinary pace, creating new opportunities for innovation, growth and prosperity. But these technologies are also making it easier, faster and cheaper to identify and exploit weaknesses that once demanded more time, expertise and resources to uncover.

AI does not change what good cyber security looks like. It raises the stakes, making the fundamentals more urgent than ever before. We cannot view cyber security as a problem to be solved once and for all. It is an ongoing effort to strengthen our defences, build resilience and stay ahead of determined adversaries and advancing technologies. Success will depend on our ability to innovate, collaborate and adapt.

At the NCSC, our role is to catalyse action across the whole of society: whether operators of critical national infrastructure, the world's leading technology companies, organisations of every size or individuals in their own homes. CYBERUK demonstrates, year after year, the power of that collective endeavour. It brings together government, industry, academia and international partners to share expertise, strengthen resilience and prepare for the challenges ahead.

We have an opportunity to shape a safer, more resilient digital future. Join us to help **secure the AI era**.

Richard Horne,
CEO, NCSC

WELCOME TO **CYBERUK 2027**

We are delighted that CYBERUK 2027 will take place in Liverpool, one of the UK's great cities with a growing reputation as a centre for digital innovation.

For generations, Liverpool has connected people, ideas and industries from across the world. From its maritime heritage and pioneering spirit, the city has consistently embraced change and helped shape the future. Today, that same ambition is driving a thriving technology and cyber ecosystem, making Liverpool a fitting home for CYBERUK 2027.

Taking place from 11 – 13 May 2027, the NCSC invites cyber security professionals, thought leaders, technical experts and industry pioneers to join us in Liverpool.

CYBERUK remains the UK's leading cyber security event, bringing together influential voices from across government, industry, academia and our international partners to address the challenges and opportunities shaping our digital world.

The strength of CYBERUK lies in its ability to unite our community. Cyber security is a collective endeavour, and the event continues to demonstrate the value of collaboration, shared expertise and a common purpose. Each year, our sponsors and exhibitors play a vital role in making CYBERUK possible, helping to create an environment where ideas are exchanged, partnerships are formed and innovation flourishes.

We look forward to welcoming both returning and new organisations to Liverpool in 2027.

OUR THEME FOR THE YEAR IS **SECURING THE AI ERA**

Frontier technologies are fundamentally reshaping our world. Artificial intelligence (AI) is rapidly transforming the technologies, services and systems that underpin modern society. Its potential is immense, offering new opportunities for innovation, productivity and growth. At the same time, AI is changing the cyber security landscape, creating new challenges, accelerating existing threats and changing the nature of the contest we face.

As AI capabilities continue to advance, **Securing the AI era** will require more than simply responding to emerging risks. It demands that we build security, resilience and trust into the technologies and digital infrastructure on which our future prosperity depends. As AI transforms threats, defences and national resilience, we must reimagine our collective role in securing this new era.

CYBERUK 2027 is our opportunity to shape what comes next.

In Liverpool, we will bring together leaders, researchers, innovators and policymakers from across the cyber security community and beyond to explore all aspects of one critical question:

How do we secure the AI era?

The answer will require collective effort to explore how we adopt, govern and secure AI in a way that builds national trust, resilience and advantage.

Government, industry, academia and international partners all have a role to play. From strengthening the resilience of critical systems and defending against AI-enabled threats, to harnessing AI's potential to improve cyber security, we must ask how we defend, adapt and lead as the technologies shaping our future continue to evolve. The decisions we make today will shape the digital environment of tomorrow.

The CYBERUK 2027 programme will provide opportunities to learn, explore and engage with leading UK and international experts through keynote speeches, interviews, panel discussions, interactive workshops and deep technical sessions. Together, we will examine the challenges and opportunities presented by AI, share insights and best practice, and help drive the innovation needed to build a more secure digital future.

Join us in Liverpool as we bring together the cyber security community to collaborate, innovate and take action, reimaging our collective role in **securing the AI era**.

**“Biggest event
of our calendar.
Opportunity
to meet
government,
senior leaders
and all serious
professionals
in the sector,
discussing most
topical issues.”**

2026 Delegate

PROGRAMME OVERVIEW

In 2027, CYBERUK will gather world-leading voices to explore the key issues shaping the cyber landscape, with plenary sessions designed to appeal to all delegates.

Plenaries: Bookending both days, the plenary sessions will encourage everyone to step back and see the bigger picture. The stage will welcome leading voices and alternative thinkers to explore the theme of the conference: **Securing the AI era.**

Tracks: CYBERUK’s track sessions allow delegates to hear from a global line up of speakers from across industry, the public sector and academia about the latest on policy, emerging challenges and wider cyber security issues.

Delegates can choose the topics that interest them from four tracks of concurrent content; **Resilience, Technology, Threat and our new track, Discipline Deep Dive.**

Meanwhile, the Tech Talks are a series of short presentations focused on innovation, emerging technologies and research, which will be drawn from an open call for papers, launching in autumn 2026.

There will also be 12 Interactive Workshops, run by both government and industry, which will give delegates a chance to take part in hands-on and interactive sessions.

 **THREAT TRACK**

Our adversaries are agile, adaptive and global. This track sheds light on the emerging risks and vulnerabilities facing the country and the globe in the AI era. Hear from leading UK and international experts about how the threat landscape is shifting, and how intelligence insight is being turned into defensive advantage.

 **DISCIPLINE DEEP DIVE TRACK**

New for 2027, this track will present sessions that will be open to all and of wide interest but aimed specifically at selected disciplines within the cyber sector. For this year, we will have a focus on CISOs and cyber lawyers.

 **RESILIENCE TRACK**

How can the UK strengthen its cyber resilience as the world adopts AI? This track explores how we could adapt thinking and practices to ensure AI delivers cyber security benefit, both now and in the future.

 **INTERACTIVE WORKSHOPS**

As the cyber landscape evolves, solutions must keep pace. Developed by government and industry sponsors, these sessions will explore live challenges and share strategies and practical approaches to allow delegates to develop their understanding and possibly adapt their practices as a result.

 **TECHNOLOGY TRACK**

This track examines the innovations, research, new tech governance and standards needed to build a secure technological future. Delegates will explore emerging ideas and proven, evidence-based solutions, understand the trade-offs involved, and discover new ways to embed lasting security into future systems.

 **TECH TALKS**

Technical talks for experienced practitioners. Following an open call for papers, the NCSC select the best experts in their field to deliver these advanced briefings. They provide insight into some of the latest thinking and research into our most pressing current and future technical challenges, providing detailed analysis and practical implications.

* While the context of the themes will remain, the titles are subject to change.

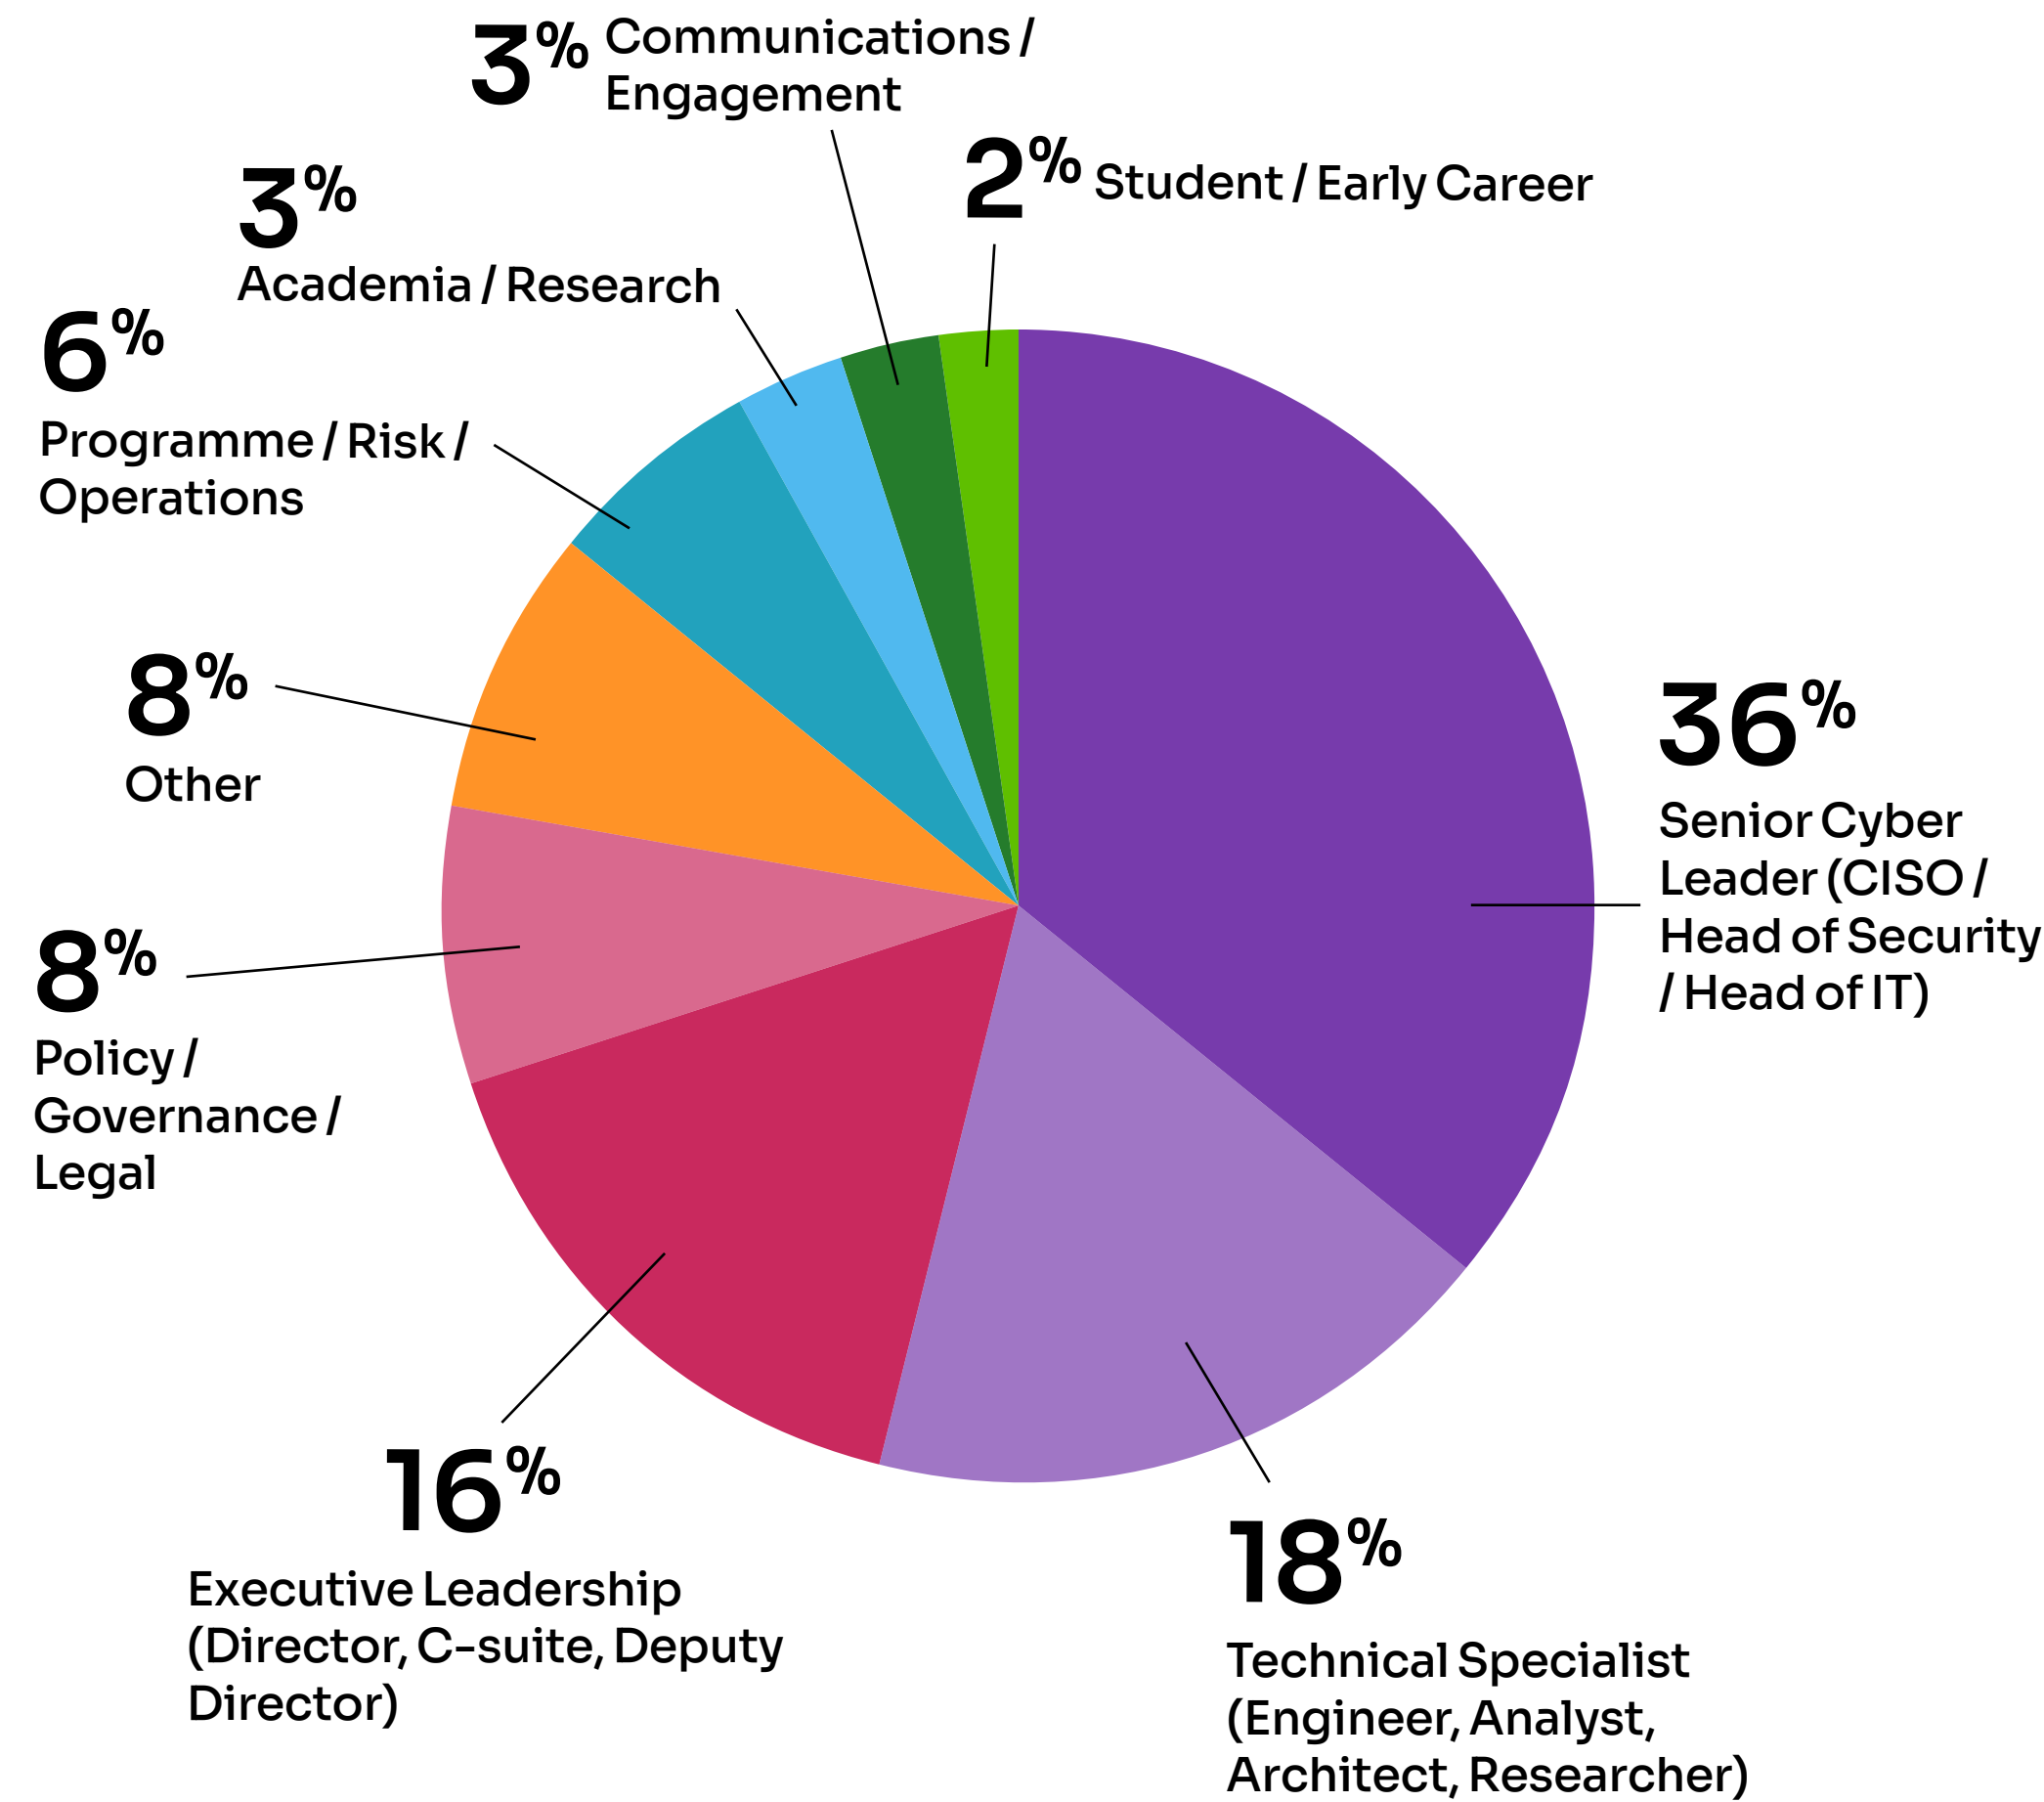

HIGHLIGHTS FROM **CYBERUK 2026**

CYBERUK returns for its eleventh year in May 2027, promising another insightful programme of thought leadership, networking and collaboration.

WHO ATTENDED **CYBERUK 2026** AND WHY?

DELEGATE JOB ROLES

WHY DELEGATES ATTEND

“The best cyber
event in the UK”

2026 Delegate

WITH SPECIAL THANKS TO OUR TECH TALKS SPONSOR...

BRINGING THE GLOBAL CYBER SECURITY COMMUNITY TOGETHER

The Liverpool Experience Campus (LEX) will host more than **2,800 in-person delegates** across two days, with many more joining virtually from around the world.

Building on over a decade of success, **CYBERUK 2027** will once again bring together an influential and diverse audience from across the cyber security ecosystem, including:

- ✦ **Strategic leaders:** delegates with responsibility for cyber security from business, public services, policy makers, academia, and research and innovation hubs
- ✦ **Startups and scale-ups:** innovative product development companies from across the UK, including the North West, and leading international companies
- ✦ **The cyber security community:** experts in digital security, procurement, and data technology at all levels from across the public sector and industry
- ✦ **Global voices:** senior leaders from international institutions and corporations with global cyber security operations

WHAT TO EXPECT AT CYBERUK 2027

As a CYBERUK 2027 sponsor or exhibitor, you will be at the centre of the UK's premier cyber security event, where ideas drive action, partnerships create impact, and the future of cyber security is shaped.

The conference will bring together the brightest minds in cyber security to challenge thinking, share knowledge, and explore the solutions that help us collectively deliver national cyber resilience as the world adopts AI. The programme will cover a wide range of security topics including: strategic perspectives on the evolving geopolitical threat environment, practical insights into emerging technologies, operational best practice, and real-world implementation.

Delegates can choose from a range of session formats, designed to support different learning styles. Alongside high-profile keynotes, fireside chats and engaging panel discussions with audience Q&A, they can take part in interactive workshops and explore deeper technical content through our Tech Talks programme.

The exhibition will showcase the latest products, services, innovations, and success stories from organisations of all sizes. Structured networking events and informal opportunities will enable delegates to meet, exchange ideas and develop lasting partnerships.

Speakers will include leading voices from across cyber security, technology, national security, business, academia, and the public sector, drawn from the UK and around the world. Their insights will help delegates better understand emerging threats, manage risk, harness innovation, and strengthen organisational resilience.

Join us and play your part in Securing the AI era.

11 May Day 0

- Early collection of delegate badges
- Welcome Drinks Reception

12 May Day 1

- CYBERUK 2027 opening day
- Informal Networking Reception
- Leaders' Dinner (by invitation)

13 May Day 2

- CYBERUK 2027 final day
- Women in Cyber Networking Breakfast
- Student afternoon (new for 2027)

NETWORKING OPPORTUNITIES

Welcome Drinks Reception

Start CYBERUK 2027 in style, reconnect with peers, meet new contacts and enjoy delicious food and drinks at a venue within the city of Liverpool. Open to all delegates (maximum capacity applies).

Informal Networking Reception

Join fellow delegates, sponsors and exhibitors to unwind after Day 1 with networking and drinks held in and around the Exhibition Hall.

Leaders' Dinner

Hosted at an iconic location, this invite-only event is a chance for senior voices from across government, industry and academia to come together for an evening of meaningful conversations and connections.

Women in Cyber Networking Breakfast

Open to all delegates, the Women in Cyber networking breakfast is a chance to discuss opportunities to support gender diversity in cyber (maximum capacity applies).

Student Afternoon

Building the talent pipeline for the cyber security community is crucial for the future of our industry. New for 2027, the student afternoon will welcome students enrolled in cyber security courses across the North West region who are thinking about their first roles in industry.

We will invite student applicants from local universities and established academic partners to apply for a ballot place and come along for the afternoon of the second day of our exhibition and programme.

For our sponsors and exhibitors, we encourage you to make the most of speaking to the next generation of talent by coming ready with information of your application process for graduate and apprenticeship roles.

“CYBERUK means a lot to the organisation; from having important discussions with NCSC to the brand awareness we get from exhibiting at the event. We look forward to participating in next year’s event!”

2026 Exhibitor

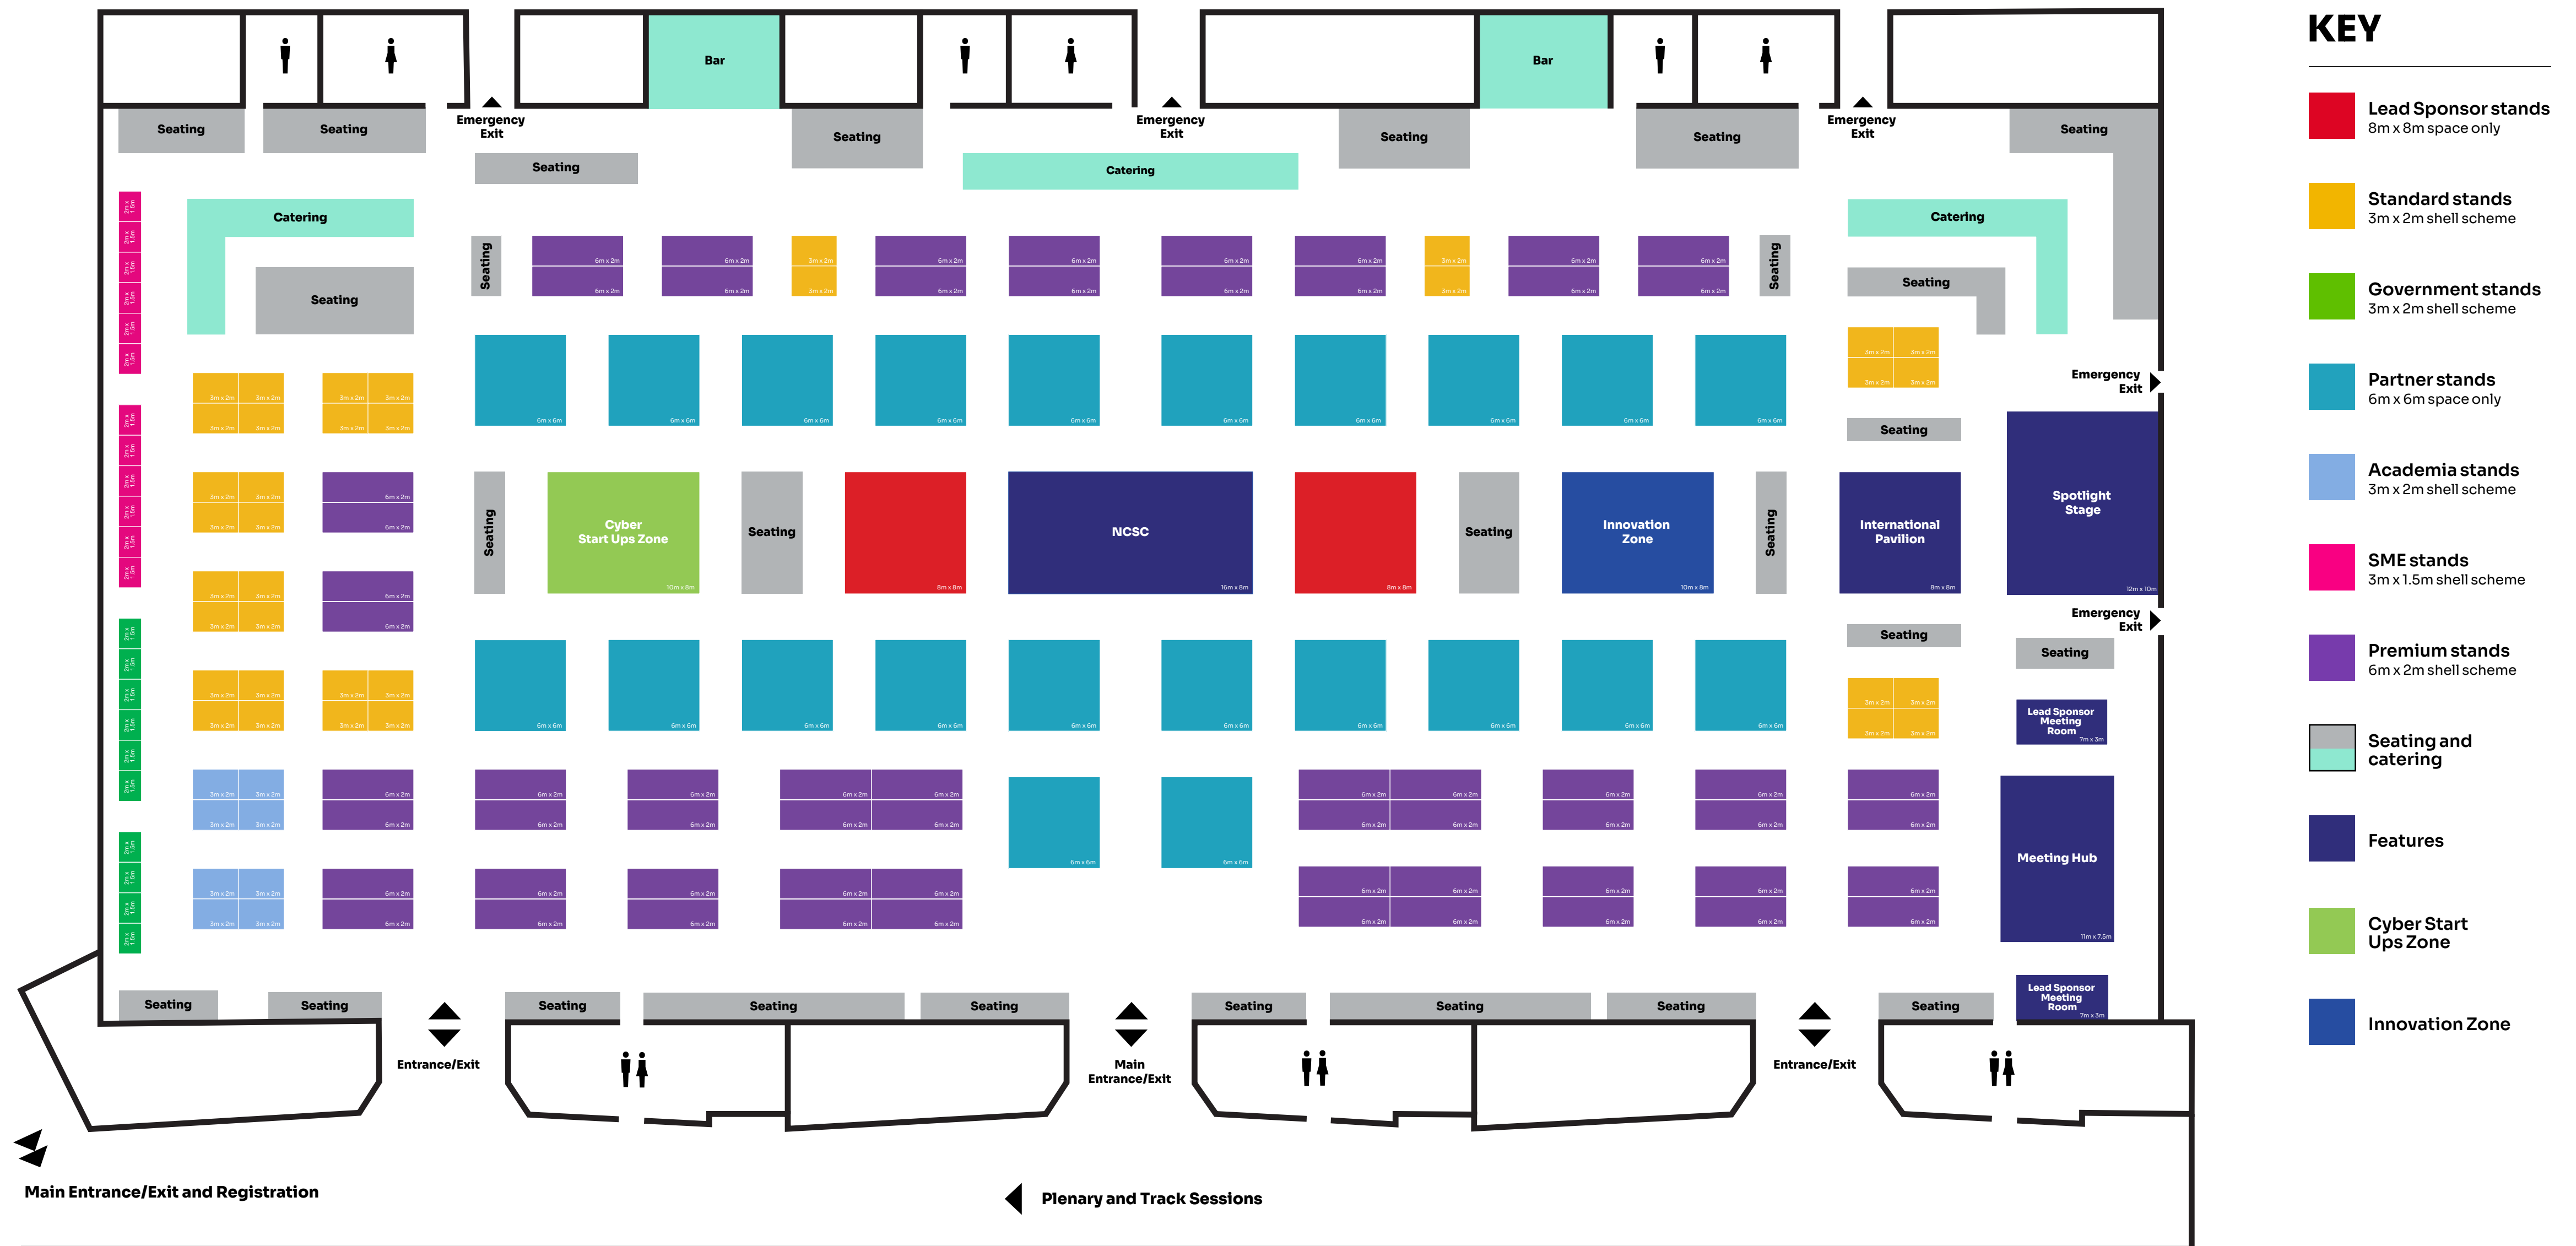

WHY SPONSOR OR EXHIBIT?

This is your chance to be part of the UK Government’s leading cyber security event.

- + Meet and engage with **over 2,800** cyber security leaders and professionals face to face and connect with many more via our online opportunities
- + CYBERUK 2027 offers your organisation **targeted in-person exposure** to high-level decision makers and technology professionals from government, industry and academia, providing valuable **lead generation and networking opportunities**
- + An **interactive experience** that matters – CYBERUK sponsors make a significant contribution to the wider cyber security ecosystem, by helping to create meaningful and enduring connections with partners and key stakeholders from both the public and private sectors as a direct result of their involvement in the event
- + CYBERUK attracts **high media interest** and social media engagement with coverage across regional, trade, national, and international television and radio broadcasts as well as press outlets including **BBC, Sky News, ITV News, The Times, Telegraph, Reuters, Bloomberg, Politico** and many more. The conversation continues far beyond the conference on our social media channels – and those of our speakers, delegates, sponsors, and viewers – contributing to high engagement levels
- + Flexible exhibition spaces and opportunities mean we can offer a **range of brand opportunities** for every level of sponsor and exhibitor

EXHIBITION FLOORPLAN

SPONSORSHIP OPPORTUNITIES

LEAD SPONSORS

£97,000 + VAT

KEY
CONTENT

We are inviting two industry partners to become Lead Sponsors of CYBERUK 2027.

Lead Sponsors will play a prominent role in the event, delivering a ten-minute keynote presentation during a plenary session and contributing additional content within the conference programme.

The package also includes a premium exhibition stand, prominent event branding, participation on the Cyber Den judging panel, and a table at the CYBERUK 2027 Leaders' Dinner.

PRE-EVENT

MARKETING

- Logo in prime position on all official CYBERUK 2027 web pages
- Lead logo and 250-word description on official CYBERUK 2027 website sponsor page
- Link from event website to sponsor website and logo on email collateral
- Inclusion in two e-bulletins (one announcing sponsor, one focused on content/activity at event)
- Inclusion in an NCSC social media post prior to event

CONTENT

- Invitation to one high-level planning meeting at NCSC's London headquarters to discuss CYBERUK 2027 programme content

ON-SITE

PRINT AND DIGITAL BRANDING

- Large logo on welcome signage
- Logo on directional signage
- Digital branding during plenary session
- Opportunity for relevant press interviews to be initiated by NCSC media team
- 10-second advertisement on digital screens (content to be approved by NCSC)

CONTENT

- Acknowledgement as lead sponsor opening Plenaries on Day 1 or Day 2 (to be confirmed by NCSC)
- 10-minute plenary thought leadership keynote speech. Day 1 or Day 2 to be confirmed by NCSC. No slide presentations, no videos. (content to be approved by NCSC)
- One dedicated workshop within the workshop track during a pre-allocated slot
- Position on Cyber Den judging panel
- Opportunity to play a 60-second video in the Plenary auditorium while delegates take seats on both days (subject to NCSC approval)
- One 5-minute interview with leading expert on CYBERUK TV (Interviewee and subject to be approved by NCSC)

EXHIBITION

- 8m x 8m space-only exhibition stand area in premium location
- Private meeting room (up to 10 pax) for exclusive use by sponsor during the event (on the exhibition floor)

PASSES

- Eight complimentary two-day delegate passes (normally £1,199.00 + VAT each)
- Seven complimentary two-day exhibition passes (normally £499.00 + VAT each)
- Three complimentary two-day speaker passes (value £1,199.00 + VAT each)
- Opportunity to purchase additional delegate passes at a discounted price

NETWORKING

- One CYBERUK 2027 Leaders' Dinner table for 10 guests - invitation process managed in collaboration with NCSC

POST-EVENT

- Logo and 250-word description on sponsorship page of CYBERUK 2027 website
- Thank you X post from NCSC, recognising and thanking all sponsors

HIGHLIGHTS

Deadline for key content packages 7 October 2026

SCHOOLS OUTREACH PROGRAMME

£29,000 + VAT

The CYBERUK 2027 Schools Programme will invite local secondary school pupils from the Liverpool area to take part in a dedicated programme of talks and interactive activities. Designed for pupils aged 12–15, the programme introduces young people to cyber security careers and the skills needed to work in the sector.

The sponsorship package allows your organisation to align with this next generation of cyber professionals and includes branding throughout the Schools Programme, recognition as its supporting partner as well as an opportunity to provide input into the activities the children participate in.

PRE-EVENT

MARKETING

- Logo and 100-word description on official CYBERUK 2027 website sponsor page
- Link from event website to sponsor website
- Inclusion in an e-bulletin featuring the Schools Outreach Programme

ON-SITE

PRINT AND DIGITAL BRANDING

- Small logo on event welcome signage
- Logo on digital screens in Schools Outreach Area
- 5-second advertisement on digital screens (content to be approved by NCSC)

OUTREACH ROOM/AREA

- Opportunity to provide sustainable giveaways to school children (subject to NCSC approval)
- Opportunity for a short welcome speech from sponsor at start of each session
- Opportunity to provide engaging activities for school children

EXHIBITION

- 3m x 2m standard shell scheme exhibition stand (including one power socket, table, two chairs and Wi-Fi access)

PASSES

- Two complimentary two-day delegate passes (normally £1,199.00 + VAT each)
- Two complimentary two-day exhibition passes (normally £499.00 + VAT each)
- Opportunity to purchase additional delegate passes at a discounted price

EXHIBITING OPPORTUNITIES

The exhibition is a key part of CYBERUK, enabling delegates to benefit from company expertise and to see, first-hand, the latest products and services on offer today.

CYBERUK 2027 offers exhibitors the chance to meet and engage with a broad cross section of stakeholder and suppliers.

- + In 2026, CYBERUK hosted 177 sponsors and exhibitors, including startups, public sector, SMEs and industry leaders
- + 87% of delegates said the exhibition was a valuable part of their CYBERUK experience
- + Over 92% of sponsors and exhibitors told us that exhibiting at CYBERUK met or exceeded their expectations

PARTNER EXHIBITOR

£23,000 + VAT

Receive 6m x 6m metres of exhibition space in this space-only stand option. Includes Wi-Fi access.

You will have the flexibility to either design your own stand and showcase your company alone or create a ‘partner stand’ to demonstrate the collaborative solutions you’ve strategically delivered alongside others within the industry.

“CYBERUK is the number one Cyber conference in the UK, bringing together leading professionals from across the field. It’s completely unrivalled in the UK and is a must attend event.”

2026 Delegate

A COMMITMENT TO ETHICAL BEHAVIOUR AND INCLUSIVITY

CYBERUK 2027 is committed to delivering an enjoyable and informative event, which:

- + Fosters a culture of inclusion
- + Encourages a diverse mix of viewpoints and backgrounds

Our priority is for every attendee to feel safe and welcome at the event and create an environment of mutual respect. We are committed to creating a space where everyone – regardless of background, identity, or experience – can participate fully and authentically. We have a code of conduct, which we share via our website and joining instructions.

A SUSTAINABLE CYBERUK

At CYBERUK, we are committed to delivering a responsible and environmentally conscious event. Working with venues and our wider suppliers, we are taking meaningful steps to reduce our environmental footprint and champion more sustainable event practices, from catering choices to production.

For 2027, we’ve chosen a venue which shares our commitment to sustainability. Liverpool Experience Campus has pledged to achieve net zero by 2030 and has set out

a sustainability strategy focused on low-carbon events, renewable energy, responsible waste management, sustainable procurement, food and beverage sustainability, and greener travel options for visitors.

We are encouraging all our delegates, sponsors and exhibitors to think and act sustainably, in travel, production and merchandise choices. As valued partners, we welcome your support to achieve our most inclusive and sustainable event to date.

CYBERUK

Join us for CYBERUK 2027, 11-13 May
